An Eclectic, Ethereal Mix

# SPRING 2015: EN PLEIN AIR

## Top 10 Women's Colors

This season there is a move toward the cooler and softer side of the color spectrum. An eclectic, ethereal mix of understated brights, pale pastels and nature-like neutrals take center stage as designers draw from daydreams of simpler times. Remembrances of retro delights, folkloric and floral art, and the magical worlds of tropical landscapes restore a sense of well-being as we head into warmer months.

"Many feel compelled to be connected around the clock because we are afraid we'll miss something important. There is a growing movement to step out and create 'quiet zones' to disconnect from technology and unwind, giving ourselves time to stop and be still," said Leatrice Eiseman, executive director of the Pantone Color Institute®. "Color choices follow the same minimalistic, 'en plein air' theme, taking a cue from nature rather than being reinvented or mechanically manipulated. Soft, cool hues blend with subtle warm tones to create a soothing escape from the everyday hustle and bustle."

On one end of the women's palette sits **Aquamarine**, an airy, ethereal blue with a cool, dreamy feel that mixes well with the other blues and greens in the Top 10. Evoking thoughts of soothing, tropical waters, **Scuba Blue** restores our sense of carefree playfulness, while invigorating the body and mind, and **Beveled Glass**, a soft, serene green offers a fresh sense of clarity.

Pair Beveled Glass with bold **Classic Blue** for a balanced and refreshed look. As the name implies, Classic Blue is a strong and reliable anchor and, with its waterborne

qualities, is perceived as thoughtful and introspective. Bringing balance to the coolness of the Spring/Summer color range, **Toasted Almond**, a sun-tanned neutral, offers timeless, comforting warmth.

Reminiscent of the sun on our skin in the spring and summer months, Toasted Almond pairs well with both **Strawberry Ice**, a light, nurturing coral tone, and **Tangerine**, an energizing, non-jarring take on orange that adds a bold pop of color for spring. Combine all three for a delicious, almost retro-inspired look.

Emanating warmth and happiness, **Custard** serves as an all-encompassing yellow for the spring palette, which can be combined with Classic Blue for a maritime look. Much like the fortified wine that gives **Marsala** its name, this compelling and cordial hue incorporates the satisfying richness of a tastefully fulfilling meal while its grounding red-brown roots point to a sophisticated, natural earthiness. Marsala works well with **Glacier Gray**, a timeless and unobtrusive gray that adds a sense of graceful relaxation as another practical neutral. Bring Marsala and Glacier Gray together with Aquamarine for an unexpected and exciting pairing that is perfect for spring.

For more than 20 years, Pantone, the global authority on color, has surveyed the designers of New York Fashion Week and beyond to bring you the season's most important color trends. This report previews the most prominent hues for spring 2015.

Uncontrived Natural + Deeper Tones

# SPRING 2015: EN PLEIN AIR

## Top 10 Men's Colors

For spring 2015, the men's palette takes a surprising turn, deviating from the women's palette more than we have seen in recent seasons. The menswear colors emphasize the need for uncontrived hues, where natural tones are interspersed with deep, foundational colors for an unassuming and sophisticated Top 10.

A perennial favorite for men, dependable **Dusk Blue** offers a cool, calm serenity, representative of the sky. Juxtapose it with **Glacier Gray**, a masculine and practical neutral, or **Treetop**, nature's healthy, harmonious green for a happy marriage of adaptable cool, warm and neutral tones.

**Classic Blue** remains a core anchoring hue that is powerful in tailored suits or casual sportswear, while **Toasted Almond** continues to serve as another essential neutral. With its yellow-green tint, **Woodbine** is a tropical green best described as nature's neutral that pairs well the earthy and rugged associations of **Sandstone**.

Masculine and solid, **Titanium** is a gray that speaks to timelessness and exudes strength, while **Marsala** offers a robust and rich contrast to the other colors in the palette and combines dramatically with other deep tones like **Classic Blue**, as well as neutral **Sandstone**.

Create a charming mélange with **Woodbine**, **Titanium** and **Lavender Herb**, the palette's most fashion-forward and spirited color. As purple hues continue to gain popularity in men's fashion, **Lavender Herb**'s mid-tone offers a retro and almost nostalgic element in the men's palette.

For more than 20 years, Pantone, the global authority on color, has surveyed the designers of New York Fashion Week and beyond to bring you the season's most important color trends. This report previews the most prominent hues for spring 2015.

## RACHEL PALLY

### PROMINENT COLORS

Pastels! From Bellini Orange and Ice Blue, to Pastel Pink and Chamomile Yellow – colors that are a little lighter and brighter.

### INSPIRATION

The beauty of California in the spring, the golden hour at the end of a warm day, the Southwest as painted by Georgia O'Keeffe and the architecture of Frank Lloyd Wright.

### SIGNATURE COLOR

Orange – Bellini Orange is what we've called it. It's the second color of the Chakra and is associated with happiness, confidence and resourcefulness.

### MUST-HAVE ITEM FOR SPRING 2015

Jumpsuits and rompers! We have a new crisscross back jumpsuit with a plunging neckline in our stencil print – which consists of Succulent Green, Dutch Blue and Ice Blue and Mesa Pink pastels – that I can't wait to get my hands on.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

We've always had a seasonless approach to color in our collections and don't adhere to guidelines of only using certain colors at certain times. For example, our fall 2014 collection had rich Samba Reds and dark Hunter Greens, but also a Dusty Lotus Pink and a Cerulean-like Aquarius Blue throughout, which may not typically be thought of as 'fall colors.' Past and present we try to choose colors that feel fresh, look beautiful, and tell the story of that season.

## JAY GODFREY

### PROMINENT COLORS

The collection explores the contrast between the raw and the refined – the color scheme is a blend of tea stained neutrals, bold prints, embellished fabrics, Burnt Oranges and Teals. Key colors include Pearled Ivory, Mint Leaf, Sunny Lime, Caviar, Apricot Wash and Living Coral.

### INSPIRATION

Classic rock musicians and their infusion of western music in the late '60s and early '70s was a key inspiration for the collection. Similar to The Rolling Stones', Bob Dylan's, and Jimi Hendrix's interpretation of the glamorous life of the cowboy culture, Jay Godfrey offers a refined take on the relaxed and casual silhouettes of the time while staying true to his New York City aesthetic.

### SIGNATURE COLOR

Pearled Ivory – the color is prominent throughout as the “tea stained” color inspiration. This is the most important color in the collection; stringing together the storyline of the Jay Godfrey girl. A consistent color throughout, it grounds the bolder patterns and colors of the collection.

### MUST-HAVE ITEM FOR SPRING 2015

The jumpsuit. It is effortless and transitions easily from day to night. The jumpsuit is a signature Jay Godfrey piece, offered each season in various fabrications and colors. It best exemplifies the JG girl's effortlessly chic approach to fashion. Specifically, Pearled Ivory, Caviar and Mint Leaf were used in jumpsuits in the collection.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

The neutrality of this season's inspiration color allows for the pieces to be intermixed practically throughout the year. Cool in the summer, yet an appropriate alternative to Black for the winter, the tea stained color styles offer a great investment in versatility. Additionally, the seasonless color choice reflects the timelessness of Western Americana and its influence on Rock 'n' Roll music.

## BCBGMAXAZRIA

Submission by Lubov Azria, Chief Creative Officer

### PROMINENT COLORS

Soft shades of Warm Dusty Pinks and Cool Blues are highlighted by Fresh Aqua and White.

### INSPIRATION

The idea of recycling and reclaiming antique rugs and textiles. The treatments used lend a beautiful patina effect that influenced our palette and prints, lending a sun-bleached softness and richness of color that speaks to the marriage of modern and traditional techniques.

### SIGNATURE COLOR

Blue Haze – this Pale Aqua shade is light and airy, bringing a freshness to the collection.

### MUST-HAVE ITEM FOR SPRING 2015

A maxi dress in a muted shade of Aqua.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

People are drawn to color, so the freedom of color choices really lets us express the mood and emotion that we want to draw people in, regardless of the season. We love the idea of diversity in color.

A mixture of Vlisco prints and garments with Warm Paradise Peach and Papaya hues; a touch of Apricot in cool fabrics with a powdery effect.

## NICOLE MILLER

### PROMINENT COLORS

Papaya and Pineapple, Lime and Plum, Lemon and Blueberry.

### INSPIRATION

I am very inspired by Brazil this year, and tropical fruit.

### SIGNATURE COLOR

Papaya is the newest and freshest shade in my collection this season. It is an off-shade and not as obvious.

### MUST-HAVE ITEM FOR SPRING 2015

A wrap crop top in Berry.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

Actually I don't agree with it – I really don't see people wearing a lot of summer colors in the fall. I do see a lot of Black year round but I think pastels for fall was just all wrong. Pastels anytime are not my favorite.

## MONIQUE LHUILLIER

### PROMINENT COLORS

I was inspired by the pastel shades in a sunrise sky and the metallic reflections it creates. Soft muted hues of Pink, Blue, Mint Green, Lavender and Yellow are used in many of the prints, as well as solids in many of the spring silhouettes. The colors are all combined taking on an iridescent dreamlike quality. To create modern elements, I used Black accents as well as metallic fabrics, keeping the collection youthful and edgy.

### INSPIRATION

The first few moments of sunrise, the instant right before the sun rises and paints the sky with luminous shades of pastels. Additionally, the reflection of the sun hitting the water creates a visual landscape that inspired the iridescent metallic undertones in my collection. This beauty of nature shaped my color palette and fabric selection.

### SIGNATURE COLOR

I love the color combination of all muted pastel shades for spring 2015. A color standout is definitely Mint Green. I love this shade of Green – it's subtle and can act as a neutral. It is refreshingly airy and quite feminine.

### MUST-HAVE ITEM FOR SPRING 2015

A layered voluminous skirt in any shade of pastel or for a bolder look in a shimmery iridescent fabric. It's so versatile and can be paired with everything from a cropped jacket to a tailored shirt.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

I have always believed there are no concrete rules in fashion when it comes to the use of color. You just need to feel what is right and matches up to your mood. Growing up in California, I'm inspired by brightness and visual landscapes and incorporate it into all my collections. I think color can be worn all year round, if done tastefully! My job as a designer is to give my customer variety and make it exciting to update their wardrobe.

## NANETTE LEPORE

### PROMINENT COLORS

Clear Sky Blues and Sunny Yellows with striking accents of Creamsicle are set against a Pale Heather-Gray base, evoking coastal France and coastal California in the early '60s.

### INSPIRATION

I want to see what it would look like to juxtapose the early '60s California free-spiritedness with the elegance and bodylines of the south of France at the same moment in time.

### SIGNATURE COLOR

Sunny Yellow – I want the collection to look happy, and to make cool, feminine women feel good when they wear my clothes.

### MUST-HAVE ITEM FOR SPRING 2015

## REBECCA MINKOFF

### PROMINENT COLORS

Marshmallow White and Sherbet Pink.

### INSPIRATION

I wanted to emulate the colors prominent in the '70s photography of Deborah Turbeville, who is the inspiration behind the entire collection. Much of her work during the boho chic era of fashion included soft faded hues and sepia tones, and you'll see colors similar to these on the spring ready-to-wear and handbags.

### SIGNATURE COLOR

White – spring is always fresh and I like the idea of new beginnings.

### MUST-HAVE ITEM FOR SPRING 2015

Jumpsuits! We're showing a great one in Pink.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

I love the idea of playing around with color every season, and I never feel tied to show light colors for spring and dark colors for fall. For my show last season, I showed lots of lighter colored coats for fall. This season, you'll have to watch to find out! Stay tuned!

## ALICE & TRIXIE

by Angela George

### PROMINENT COLORS

Bright Sunshine Yellow, Neon Pink, along with Jade Green and cool, refreshing shades of Purple and Turquoise.

### INSPIRATION

We are ever-inspired by the past – pulling from vintage shops and works of art – but for spring 2015 our inspiration was really drawn specifically from Capri, Italy in the '60s.

### SIGNATURE COLOR

Sunshine Yellow – it adds a distinguishing characteristic to different palettes throughout the entire collection.

### MUST-HAVE ITEM FOR SPRING 2015

Since we can only choose one – we would have to say our must-have piece for spring 2015 is the Riviera Maxi. This piece is the epitome of all of our inspiration and incorporates all of our prominent colors – not to mention the body, which is a column tank maxi dress that stuns with beautiful cut outs on the back.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

It's exciting to see that the industry is beginning to accept a practice that we have followed since I first began Alice & Trixie. We have always been seasonless in our color palettes and our customers expect, and come to us, for bold designs that are bright and energetic year round!

## CHRISTIAN SIRIANO

### PROMINENT COLORS

Blue Seafoam, Cool Aqua, Icy Blue, crisp and clean White and Deep Navy.

### INSPIRATION

The glass sculptures of Sergio Redegalli. I was drawn to the diffusion of light and reflective transparency of his work installed at the Adelaide Botanic Garden, where his sculptures have an almost long, liquid quality to them atop the dark water on which they sit. This is echoed in the collection in the form of reflective fabrication. Inspired by the glass itself are some of the icy arctic Blues and Greens, the sharp laser cut patterns and intricate, sometimes voluminous, crystal embroidery. I wanted this collection to feel light, clean, and crisp – tranquil like a Japanese Zen rock garden, modern for today's woman. The collection combines simple elegant separates for day, and lustrous, long dresses for evening, to outfit the Christian Siriano customer with something light, feminine, clean and crisp.

### SIGNATURE COLOR

Blue Seafoam and Serenity, as they represent the tone from my inspiration.

### MUST-HAVE ITEM FOR SPRING 2015

A Blue Seafoam strapless crystal embroidered dress with a Cool Aqua, Turquoise silk flounce collar coat.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

When working on a collection the first thing we think about is how to use color and how our customer can wear it. Seasonless colors are so important to our consumer who is investing in luxury eveningwear. She needs to be able to wear something from the collection that is new and fresh, but will be timeless in years to come.

### PROMINENT COLORS

We have folkloric brights, such as a super bright almost fluorescent Hot Pink, Bright Poppy, Sunshine Yellow, Mango, and Pale Aqua offset by easy summery shades of Indigo and Ivory and accented by hints of Metallic Copper, Silver and Gold.

### INSPIRATION

Color and pattern mixing in central and eastern Asian textiles – folkloric patterns and colorways from Uzbekistan, Turkistan, Kazakhstan, Vietnam, and Japan. We are also doing a collaboration with artist Ryan McGuinness, so I was looking at his art and color combos and thinking about it all together.

### SIGNATURE COLOR

## TRINA TURK

### PROMINENT COLORS

We're using tonal combinations of an Orange-y Red, we're calling Red Hot, Coral, with bright, almost Neon Orange pop, contrasted with Aquarius and Blueprint Blues. We are also using Spearmint, Limeade and Lilac combinations in another grouping of floral prints.

### INSPIRATION

Our vibrant palette is inspired by the LA Flower Mart – lush flowers and foliage in a decidedly non-glamorous setting that includes generic, sometimes neon signage, and the utilitarian “tools” of a working flower market. Precious, exotic blooms from all over the world contrast with kitschy, pre-arranged bouquets tinted by the sheer hues of their cellophane wrappings.

### SIGNATURE COLOR

Red Hot is our most important color because it is key in our “Poppy” print, which the collection revolves around.

### MUST-HAVE ITEM FOR SPRING 2015

A one piece – either a romper or jumpsuit, in a print or solid color. It is Red Hot or Whitewash, a White that is just a few shades more creamy than Optic White.

## DAVID HART

### PROMINENT COLORS

A combination of rich earthy tones and nostalgic pastels. We are combining colors like rich Terra Cotta, Bordeaux, Oregano, and New Indigo with Dusty Pink, Seafoam, Butter Yellow, and Pistachio.

### INSPIRATION

The natural landscape of Palm Springs along with the colors used in the Modernist architecture. We pulled colors from the color photography of Julius Schulman and our Yellow was picked by matching the curtains of the Albert Frey house in Palm Springs.

### SIGNATURE COLOR

Dusty Pink. The color is present throughout the collection in solid linen, mohair, and incorporated into our atomic and desert landscape yucca prints.

### MUST-HAVE ITEM FOR SPRING 2015

Our linen suit – We are offering it in Dusty Pink, New Indigo, Seafoam, Terra Cotta, and Bordeaux.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

I've always used color in my collection. I think what makes my collection special is our use of color and how we use it unexpectedly. I love using darker colors in spring by pairing them with lighter crisper fabrics and doing the opposite in fall.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

Seasonless color has had a major impact on the collection because the Gents brand stands for minimalism, sophistication and a classic aesthetic that encompasses seasonless colors such as Gray (Heather Ash), Navy, Black and White. Styles and colors that surpass trends and are universally classic are what every man will always want in his closet.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED YOUR BUSINESS?

We encourage our readers to play with color all year, especially hues that might seem hard to wear, like Winter Whites or a Buttery Marigold. In addition to our “Color Crash Course” feature in the magazine, which readers love, we actually produce a color report and app each season called, “What to Wear with Every Color.” The app showcases complementary color pairings, style advice and tips from designers themselves. The idea that you can only wear a certain color in summer or winter feels archaic; unexpected color combinations are stunning and can change the whole mood of a look. Seasonless color is about having fun with color all year long.

I'm an artist first, so I've always viewed color as seasonless. With my role as a tastemaker, the concept of seasonless color has impacted the business because people are open to trying new styles and stepping out of their comfort zone to find their personal style rather than following the rules.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

The trend of seasonless color is an extension of a larger philosophy growing worldwide, which is the breaking of limitations as well as the practicality of wearing all your colors year round. When I worked at Jane Magazine in early 2000s, we had a column called “Do This Don’t,” which essentially was a fashion rule-breaking suggestion – for example, “wearing White after labor day.” It was popular and hit a nerve with our readers. I believe traditional dogmas are melting away and the consumer not only craves being “out of box,” but more importantly, prefers permission to be themselves, without fashion judgment.

## KENDRA SCOTT

Founder and CEO,  
Kendra Scott Jewelry

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED YOUR BUSINESS?

Color has always been at the heart of my brand. Even in the days of fall's darker patterns or spring's soft, feminine palette, we have never been afraid to push the boundaries and embrace vibrant neons, bold designs or pattern play, no matter the season. A significant portion of our business, however, is dedicated to metallic styles and neutral colors. The growing acceptance of seasonless color has allowed us to dive headfirst into the world of mixed metals and neutral stones that give our jewelry a fresh look. To me, seasonless neutrals with a dash of bold color make for the perfect style combination.

## LEATRICE EISEMAN

Executive Director,  
Pantone Color Institute®

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED YOUR BUSINESS?

As a colorist, I have always found all hues to be seasonless. Nature is the best teacher – a glowing zinnia is a welcome addition to a garden in springtime and perfectly at home when residing on a pumpkin in the fall. An Icy Blue cools us in summer while equally breathtaking and bracing in a winter sky. It's all a matter of context, and I feel that pertains to clothing as well – it's all about how the color makes us feel, regardless of season.

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED YOUR BUSINESS?

In our technical, turned-on world, people are hungry for tactile, visceral, and experiential images – and color plays a huge role in that. It's an exciting time where the desire for authenticity and sensory experience allows us to break any 'rules' we've had in the past about color and aesthetics. Seasonless color to us, means brands are free to tell richer, juicier stories and people are empowered to re-picture the world.

## LYN PAOLO Costume Designer

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED YOUR BUSINESS?

For me it has been an encouraging trend. The ready availability of lighter tones has meant that my capacity to tell a story with color has widened; I am no longer confined by what is available. The narrower color palette of times gone by which was strictly dictated by season was often confining to me personally and professionally. The softer hues of light Greens and Periwinkles that I am seeing for fall this season are encouraging and I hope that this trend will continue for some time.

Like fashion, cosmetics will always have seasonal colors and trend looks. What remains constant at SEPHORA, regardless of season, is client demand for an expansive neutral palette. ## NICOLE FISCHELIS Group Vice President and Fashion Director, Macy's

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED YOUR BUSINESS?

At Macy's, we create seasonal and monthly color palettes which are used company-wide. Each season, our "must-have" color story is reflected across every category of business – from fashion and accessories to home. In terms of a growing acceptance, the trend toward fashion colors rather than seasonless remains important to our customer. While she may own items in a seasonless palette, she reacts very positively to fashion colors. Color also creates an emotional reaction and stimulates the impulse to buy.

## MOSKOWITZ

Chief Curator and Editorial  
Director, eBay

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

The real challenge, in an era of ever-expanding color placement (from digital screens to physical products) is learning to account for the very different emotional and psychological responses that a single color can trigger. It changes dramatically from country to country. Red might symbolize 'luck' or 'good fortune' in China, but it telegraphs precisely the opposite message in Germany and Nigeria.

That's why designing in and for digital encounters presents a host of challenges that many great creatives – who typically (and thankfully) design more by eye and by instinct, rather than by data-driven signals – are sometimes less prepared to address.

Consider something as simple as a BUY button, on a commerce site. In Yellow, it might feel 'optimistic' and according to research 'youthful,' but it typically fails to convert into sales. In Red, that same BUY button can pulse with energy and urgency, but most people (based on testing) are far less inclined to click a Red button than a Blue one.

You might, therefore say that this notion of seasonless color matters to me and too many of my colleagues in tech who are trying to solve behavioral challenges or emotional needs with chromatic reasoning. Not with rules, but with tools. One of these tools is eBay Today, which curates and editorializes the things people need and love from the marketplace – for all seasons and a multitude of colors.

Vice President of Merchandising,  
11 Main

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED YOUR BUSINESS?

Color can be a powerful storyteller. Oftentimes, color is an integral part of a person's selection process. At 11 Main, our goal is to inspire and empower shoppers to express their personal style and there's no better way to do that than through color. The shops and boutiques at 11 Main represent Main Street. Therefore, the impact of the economy, climate change and the environment has a direct impact on our business and the way people shop. Blurred lines within seasons provide our shoppers and shop owners alike versatility and timelessness and with seasonless color, a shopper's style is never compromised.

Mood Fabrics

### HOW HAS THE GROWING ACCEPTANCE OF SEASONLESS COLOR IMPACTED OR INSPIRED YOUR DESIGN AND COLOR CHOICES?

At Mood, our clients have an insatiable appetite for what's new and current in fashion, especially when it comes to color. Analogous color palettes and neutral tones are very popular amongst our clientele, because they look great and especially because they easily transition to changing seasons.

Staying on top of color trends is one of our priorities when choosing new fabrics. Having these sorts of colors in stock inspires our customers to continue to create new collections and also helps the business to flourish.

Yellow hues, jewel and Purple tones have been very popular for us here at Mood fabrics throughout this last season, including the Color of the Year Radiant Orchid. When paired with neutrals these colors can really stand out, they can also be great accent colors to pull a collection together.
